

*"When local services and youth work together,
we can achieve better outcomes for our young people"*

THE YOUTH NETWORK AIMS TO ENGAGE AND STRENGTHEN THE SECTOR'S CAPACITY TO RESPOND TO ISSUES IMPACTING YOUNG PEOPLE AND IMPROVE OUTCOMES FOR YOUNG PEOPLE BY ADOPTING 3 PRINCIPLES:

Partnerships

- Encourage and strengthen relationships between our services
- Allow for the right support to be given by the right people at the right time
- Ensure there is consistency of support with a coordinated 'team' approach where needed
- Provide collegiate support

Advocacy

- Empower our young people to have a voice
- Hear from and value our youths' ideas about issues and include their voice in the solutions

Educate

- Seek out relevant training and support across the youth and community services sector for young people, parents, carers and workers
- Increase our knowledge and abilities to support young people by learning and growing together
